Rapid equine is a 30ml bottle which is probably what grasso had, but that is still price ALOT lower than I can purchase it for. Horse necessities which horsemen believe is a better product, is a 50 ml vial. Now I do see they bumped it up in price, I didn't catch it last time I will credit you \$70, and I spoke to doc, he is going to approve a bulk discount rate for you on this product and also on his product the homeopathic bleeder plus buy 12 get one free Source Extraction: Advanced Logical
